

THE STUDY CYCLE:

Preview Before Class

Skim the chapter. Note headings and boldface words. Review summaries and chapter objectives. Come up with questions you'd like the lecture to answer for you.

Attend Class

Answer and ask questions and take meaningful, thorough notes.

Assess Your Learning

Periodically perform reality checks. "Am I using study methods that are effective? Do I understand the material enough to teach it to others?"

Review After Class

As soon after class as possible, read notes, fill in gaps, and note any questions you have.

Study the Material

Repetition is key. Ask questions such as "why", "how", and "what if." Use Intense Study Sessions (see below). Do 3 - 5 short study sessions a day. Use weekends to review. Read notes and material from the week to make connections.
